DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Ohzeki

5,925,956 A. Ohzeki discloses in figure 7 a drive apparatus with a plurality of armatures 2c, 2d, 2e, 2f, a secondary side member 4 with permanent magnets 5c, 5d, 5e, 5f and position detectors 3 as described in column 12 lines 6-67.

In regard to claim 10, see the abstract of Ohzeki, lines 1-5.

Allowable Subject Matter

Claims 2-9, 11 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose or teach armatures having first and second opposing portions in combination with the other features of claim 2. The prior art of record does not disclose or teach a plurality of armatures having a first core with a first opposing portion and a second core with a second opposing portion where each opposing portion includes an upper pole-tooth portion and a lower pole-tooth portion in combination with the other features of claim 3.

The prior art of record does not disclose or teach a drive apparatus with the claimed pole pitch

spacing for the armatures and permanent magnets in combination with the other features of claims 4 and 5. The prior art of record does not disclose or teach a drive apparatus with multiple position detecting elements disposed at the claimed intervals in combination with the other features of claim 8.
